Marine City Tree Replacement Program

The City of Marine City is starting a tree replacement program sponsored by the Tax Increment Finance Authority that will offer residents the opportunity to replace trees, which have been removed by the City in the easement, at **no cost** to the homeowner. The purpose of this program is to maintain an aesthetic and environmentally healthy community.

In order to qualify for this program, the following criteria must be met:

- A resident must have had a tree removed from the easement by the City, whether due to disease, death, or other reasons deemed necessary of removal by the City.
- The tree must have been removed during the following years: 2012- present; unless otherwise stated by the Department of Public Works Superintendent.

Upon filling out an application, homeowner's will be able to choose from a select list of trees to plant. The following trees are available: *Autumn Blaze Maple*, *Regal Petticoat Maple*, *Green Mountain Sugar Maple*, and the *Autumn Brilliance Serviceberry*. This list of trees has been put together through the collaboration of the Department of Public Works and the Marine City Nursery. After selection and approval from the DPW Superintendent, the City will plant the tree in the easement and the homeowner will be responsible for its perpetual care.

There are a limited number of trees available through this program. Therefore, replacement requests will be prioritized by the order in which we receive them. For all requests that cannot be met due to the limitations, residents may choose to be placed on a waiting list. For further information on this program, please contact the Department of Public Works Superintendent at (810) 765-9711.

TREES AVAILABLE

Autumn Blaze Maple (Fall)

Autumn Blaze Maple

Zone	4 – 8
Tree Type	Shade
Mature Height	40' – 60'
